

Roots of Resilience: The Cooperative Path to Amazonian Innovation

TOGETHER STRONGER, TOGETHER TRIAS.

With over 50 years of experience, Trias supports member-based organisations of farmer and non-farmer entrepreneurs in Europe, Africa, Latin America, and Asia.

By working directly with local partners, we help strengthen their capacities, reaching thousands of small-scale entrepreneurs and family farmers across 17 countries.

By empowering farmer and non-farmer entrepreneurs with the right tools and knowledge, we enable them to fully participate in their organisations, making them stronger, more resilient, and better prepared for the future.

**We believe in strong, inclusive,
and sustainable entrepreneurship
as a driver of positive change.**

WHERE DO WE WORK: WITH LOCAL ROOTS, GLOBALLY CONNECTED

17 countries
11 offices & **159** staff

187K
direct beneficiaries
(family farmers and family
entrepreneurs)

7.5M
indirect beneficiaries

115
Social MBOs

102
Projects around the world

€18 M
Annual budget

HOW WE WORK: STRENGTHENING ORGANISATIONS FROM WITHIN

We support Member-Based Organisations (MBOs) because real, lasting change happens from within. Governed by farmer and non-farmer entrepreneurs, these organisations foster ownership and ensure their actions stay relevant to their members' needs.

Our work is bottom-up, empowering people to lead, adapt, and grow. Strong MBOs create a ripple effect by building resilience and prosperity that endures.

At Trias, we believe in the power of people working together.

Everything we do integrates:

- ✔ Business Development & Market Access
- ✔ Inclusion & Global Citizenship
- ✔ Ecological Sustainability & Climate Change

OUR ORGANISATIONAL DEVELOPMENT APPROACH: SPIDER

The SPIDER methodology facilitates dialogue & reflection for continuous learning.

We believe in strengthening member-based organisations at their core, using a 6-core capacity framework that builds:

Inclusion

Financial Health

Ecological Sustainability

Service Delivery

Leadership & Governance

Advocacy & Networking

SUSTAINABLE AND INCLUSIVE ENTREPRENEURSHIP

Build resilience & Empower our partners in addressing climate change.

BUSINESS DEVELOPMENT & ACCESS TO MARKET

Provide practices integrated services that empower their members to build robust businesses, access fair markets and cope with economic changes

With Coopemapi (MG), Acosper (PA) and Cooafeto (TO), we are developing:

Bioeconomy, peer learning & training, R&D on meliponiculture & apiculture

In 2025, Coopemapi exported to Europe US\$ 200.802,44.

INCLUSION & GLOBAL CITIZENSHIP

Inclusion strategies into inclusive governance, with attention to women and Young people

- Capacity-building to 56 young people in climate justice (with a focus on gender equality)
- First edition on Climathon contest (winner from Rondônia)

CLIMATE CHANGE & ENVIRONMENT SUSTAINIBILITY

Integrate Climate awareness & sustainable practices into entrepreneurship to build resilience and empower our partners to tackle climate change.

Developed institutional sustainability & climate advocacy strategies

- Strategic panels & workshops during COP30
- Mapping on 162 cooperatives climate practices
- Advocacy Manifest

Check Unicafes Manifest, presented to 6 Brazilian Ministries & Diplomatic corps of different nations, +30 OSCs
